

1. (twice amended) A display unit,
suitable for a vehicle, comprising:

C1

a dial plate and a display located in a
region of the dial plate, the display having a front surface,
wherein

the front surface of the display, which
faces an observer, is arranged in the same plane as a front
surface of the front of the dial [plate] plate, which faces the
observer.

3. (three times amended) The display
C2 unit as claimed in claim 1, further comprising a film applied to
the front of the dial plate; and

wherein the display comprises a liquid
crystal screen with a [pole] polarizing filter, the [pole]
polarizing filter being in a front panel of the display and
arranged in the same plane as the film at the front of the dial
plate.

4. (three times amended) The display
unit as claimed in claim 3, wherein the film covers the dial
plate and the display, comprises a scale in the region of the
display, and serves as the polarizing filter.
